

CHANGE NOTICES ARE NOT
CUMULATIVE AND SHALL BE
RETAINED UNTIL SUCH TIME
AS THE STANDARD IS REVISED

FED-STD-793
CHANGE NOTICE 1
JANUARY 27, 1987

FEDERAL STANDARD

DEPOT STORAGE STANDARDS

The following changes which form a part of
FED-STD-793, dated October 30, 1985 are
approved by the Commissioner, Federal Supply
Service, General Services Administration for
all Federal Agencies.

PAGE 1

Delete Paragraph 3.2 and substitute:

3.2 Shelf-Life Extension Criteria. The material being inspected/tested shall be sampled as specified in 3.1. Each sample shall be inspected/tested as specified in the appropriate appendix (see 4.3). For items not listed in the appendices, contact the technical support activity responsible for the item (see 4.2). The material will be considered suitable for issue and the shelf-life extended if the number of defects does not meet or exceed the rejection number for the Acceptable Quality Level specified. If the rejection number is reached or exceeded, the item is not suitable for issue and the lot shall be excessed.

3.2.1 Length of shelf-life extension. When the shelf-life of an item is extended, the new reinspection date will be determined by adding one-half of the item's stated shelf-life to the month in which the item is reinspected. Any extension period containing a fraction of a month shall be rounded up to the next larger period of whole months.

3.2.2 Maximum time the shelf-life can be extended. Unless otherwise specified in the appropriate appendix, at the wholesale depot level, the reinspection date of type II (extendible) shelf-life items in FSG 80 may not be extended beyond the date determined by adding 2 times the item's stated shelf-life to the date of manufacture. Example: a paint in FSC 8010 with a date of manufacture 5-85 and a shelf-life code of 4 (1 year) may not have its reinspection date extended beyond 5-87. Unless otherwise specified in the appropriate appendix, at the wholesale depot level, the reinspection date of type II (extendible) shelf-life items in other FSG's may not be extended beyond the date determined by adding 3 times the item's stated shelf-life to the date of manufacture.
